QUEST USTRZYKI DOLNE

I have travelled far to the town of Ustrzyki Dolne
 Here I am in the park *Under the* $\frac{\quad}{5} \frac{\quad}{20} \text{---}$.
 Named after the oldest trees that grow on its edge.
 Ustrzyki's secondary school or *liceum* in Polish
 Is where my journey's supposed to finish
 So's yours, I hear, join me then
 a shared adventure sounds like more fun

Set off and, head for the green bridge
 Walk over the stream, I hear it's special
 Will anybody tell me why?

The bridge behind, turn left and walk ahead
 Having reached the main road, see a red brick
 $\frac{\quad}{18} \frac{\quad}{11} \text{---}$ on your left
 Just glimpse its sight, and then turn right
 You won't walk even 100 steps, before you see
 a remarkable $\frac{\quad}{14} \frac{\quad}{2} \text{---}$ tree
 just by the road on your right.

The inscription says it grew by Waniek's
 house.

But who was Waniek? the question is. I'll ask
 my friend. (S)he must know this

Let's carry on along the road.
 Past a $\frac{\quad}{16} \frac{\quad}{9} \frac{\quad}{8} \text{---}$ $\frac{\quad}{3} \text{---}$
 Ustrzyki's athletes' favourite place

Then over one more --- over
 the $\frac{\quad}{13} \frac{\quad}{21} \frac{\quad}{7} \text{---}$
 Strwiąż

Ignore the turnings walk straight ahead
 See a bike $\frac{\quad}{1} \text{---}$ $\frac{\quad}{12} \text{---}$ above your head?
 Good! The next clue's sixty meters ahead
 Just on the corner on your right
 A stone --- -shaped memorial
 comes $\frac{\quad}{15} \text{---}$
 to sight.
 Well, like one in the country's emblem not in
 flight

Now across the zebra onto a cobbled square
 you see a huge figure there
 a ---
 $\frac{\quad}{6} \text{---}$ $\frac{\quad}{4} \text{---}$
 sculpted in wood

A few steps farther a memorial with three flags
 Leave it behind, the stairs lead you up
 Is the house on the corner number seventeen?
 Good! It means you're still on the track

Keep walking up, take the first right
 A strange looking building, like a huge brown roof
 with little else
 That's the --- of a nearby national
 park.
 Carry on as far as the T- junction then turn right
 Now the sign post telling you to STOP

You may stop if you please but turning left here is a
 must
 Walk down, then past a playground
 A church on the left and a bell tower with
 $\frac{\quad}{10} \text{---}$ bells
 Tell you that you've nearly reached the place
 Turn right, go through the gate on your left
